

Senior/Medical Writer

Join our talented editorial team!

Are you an ambitious Senior Medical Writer looking for a fantastic growth opportunity? We are expanding our team and seeking a self-motivated individual with a proven record of delivering excellence and building client relationships in a healthcare communications agency.

What we offer:

- Access to senior-level support to accelerate your professional growth
- Opportunities to leverage your strengths and make a significant impact
- A friendly, independent work culture
- A diverse range of project types across medical communications
- Flexible hybrid working options
- Competitive salary and benefits

The role: As a valued member of the Alpharmaxim team, you will:

- Produce high-quality scientific materials for pharmaceutical companies and their customers
- Research, write and manage a variety of scientific, educational, advocacy and commercial materials across a range of therapy areas
- Ensure data accuracy and balanced interpretation of complex datasets
- Liaise with clients and external opinion leaders to establish, maintain and develop relationships
- Manage resource and workload of own projects
- Travel, including on-site meeting and event support

Qualifications:

- Life sciences degree plus MSc and/or PhD

Key competencies:

- Scientific/commercial writing, with the ability to adapt to different therapy areas/audiences
- Interpersonal and communication skills
- Broad knowledge of the pharmaceutical industry, in-depth experience across at least two therapy areas and a number of medical products (agents and/or devices)

Additionally, experience of mentoring, briefing and reviewing work, budgetary awareness and the ability to contribute to budgeting and proposal development would be desirable, as

well as the willingness to participate in brainstorming and pitches for business development opportunities.

About us: At Alpharmaxim, we drive behaviour-changing communications to empower our clients in fulfilling their promises to patients, families, healthcare professionals, employees and internal teams, enabling the change that leads to healthier communities.

Guided by the principles of behavioural science, we approach every project with a collaborative mindset, fuelled by a passion for making a meaningful impact. We work with dedication to unlock the full potential of our clients' visions, creating narratives that resonate deeply and solutions that drive real change. With integrity, creativity and an unwavering commitment to excellence, we transform ideas into impactful, purpose-driven outcomes.

For over 20 years, we have blended scientific and creative expertise to develop compelling communications that are driven by emotion and grounded in scientific principles, inspiring confidence and driving transformative behaviour change to achieve tangible results.

Our culture and people: We are a dedicated creative team with a passion for science and a shared commitment to our clients. Working in an open, inclusive manner, every individual is empowered to contribute, share their ideas and make themselves heard. We learn and grow together, benefiting from each other's talent and experience to develop our own capabilities and find fulfilment in our work.
